

Dear Pops,
I miss you so much. You stepped into my life at a time where I really needed a father figure. You loved me as if I were your own you were my best friend and you taught me a lot of things that I'll never forget... I'll forever love you and hold you close. You were the best father a kid could ever ask for.

Love,
Asi

JERMAINE LOUISE GRANT

THURSDAY, MARCH 11, 2021

VIEWING: IOAM SERVICE: IIAM

Riley-Antoine Funeral Home

171 Humboldt Ave.
Dorchester, MA 02121

You were my friend you were my brother. You have been a safety and comfort to me at times when I knew no other. You helped me raise some of the most amazing young men and no words can express how thankful I am to you. I don't know how we got to this place and I know they say GOD choose for a reason but this loss seems so different so surreal this has for sure been one of the biggest test of a life-time but I know you have my back and I know you leaving me here on earth is just making sure my unseen army is that much stronger because you know I don't always ask for help out loud but now I know all my warriors will hear me and give me strength...

Love,
Your Little Big Sister Jeneeka

Jermaine Louise Grant is the third born Child to Carolyn Grant and his father Eddie Hall. He leaves behind his mother Carolyn Grant. Sisters Jeneeka and Jamilliah Grant and Tanya Hall. My love my heart has been broken they have called for my Angel to serve in heaven to watch over me and give me strength to go on in his path I take this journey not alone but with my Angel.
Love you bubba Jermaine from

Big brother,
It's no easy way to tell you in words how much I love you.. how much you will be missed. I honestly never wanted to have to say goodbye to any of my siblings in this way. We each have our own close bond. I keep feeling as though I'm having a bad dream.

This year has hit me so hard now that you are gone. My heart aches. You were one of the people that helped to support me by teaching me to boss up just from having talks when I endured let downs that gave me insight on why independence is so important. You was such a grounded cool

individual. You such a beautiful soul, I'm so blessed to have had you as brother, a earth angel, now as a spirit guide. I know God would need you back one day...I just pray the most high remembers while you're doing God's work the boys and I love you so much we will infinitely need your guidance, love, and protection. I will have patience until we meet again. I now ask that the creator of all things surround your soul and spirit with peace, love, light, and guidance to and from the heavens infinitely.

You worked so hard and fought so long.
I know that no matter how much I cry knowing your no longer here in the physical I Will remember your Unbreakable smile.

I will gain strength daily in knowing that no matter what you endured your smile was Unbreakable. May you rest in royalty Doughboy infinite love from your nephew Jaking and your little sister Jamilliah.

For Uncle Jermaine
I felt empty when I heard you were gone. You were here one second and then gone before I knew it. I feel I took you for granted as if you would last forever. You were such a great person and you were taken from us too soon. I miss you and I hope that you could've stayed longer.

Love you,
Uncle from Jamory

You taught me what it meant to hustle, how to do it yourself no matter how long it took you. It's crazy that I'm even writing this...wish I spent everyday with you maybe then just maybe this wouldn't have happened. I'm scared to close my eyes because if it can happen to you it can happen to us. You fought everyday you took care of us all without spot light or recognition. We just knew we could call unc mane. It hurt me to see you not able to fight no more...so I carry you in my heart in

my mind in my soul and now its my turn to fight for you be my angel so I can be the angel you were for mommy and nana.

I love you ... no more stress in paradise

Love,
Ki

You've done a lot to try to be better when I notice that you seen yourself in me I tried to understand why you pushed me to see beyond people's word and carve mine in stone I never had to worry about you doubting me even when you thought it was something better for me to do you stood behind me 200 percent your one of the people that taught me that I don't have friends only to give them what they give me you're more of a father than a uncle to me In this moment I can accept that I'm not gonna see you again but I want you to live through me one accolade at a time.

Love,
Shakim

Jermaine, thank you for being my little big brother ! I'm going to be crying, kicking , and screaming until I see your face again in heaven! From the gas station, to grown men, this bond will never be broken! God rest your soul you did well little brother ! I love you forevermore!
